1/4" Clear Fire Glass

Fire Glass is a sure fire way to enhance the aesthetic appeal of any fire feature and will also give your customers' home a more modern and stylish ambiance. If your customers are looking for fire glass that will blend seamlessly with any color scheme and style then this clear fire glass from our 1/4" fire glass collection is a terrific choice.

The clear, sparkling, glass crystals look like diamonds and seem to spread tranquility and warmth all around. Perfect for both indoor and outdoor environments, your customers might also want to try mixing it up with other vibrant colors in order to create an even more enchanting display. When the flames blaze over a bed of these clear, sparkling glass pieces, it creates a fire display which is nothing short of mesmerizing.

A Practical Alternative to Ceramic Logs & Stones

Our clear fire glass is not just lovely to behold, it is also very practical. It does a great job of covering the entire floor of a fire feature, effectively hiding the unseemly pipes and tubes which are often visible in gas fireplaces or fire pits. This makes fire glass a more preferable alternative to the more common ceramic logs and stones.

Extremely Durable, Safe & Long Lasting!

Made of non-tumbled tempered glass, this fire glass has been manufactured to withstand harsh weather and temperatures of up to 1300 degrees Fahrenheit without cracking, or losing its color or shape. Used correctly, this amazing product could last your customers a lifetime!

Furthermore, our 1/4" clear fire glass is both extremely heat efficient and low maintenance. It produces more heat per unit of fuel consumed as compared to fire logs and stones. And, because it emits no smoke, soot, or ash there is virtually no maintenance required. Thus, your customers will be able to spend more time enjoying this fire glass and less time cleaning it!

Introduce your customers to our 1/4" clear fire glass today!
