1/2" Bali Reflective Fire Glass

Sometimes one needs to get away from the hustle and bustle of city life and take a vacation to some place more exotic and explore their spiritual side. A sanctuary where they can escape from their daily worries and focus on what is really important to their existence. Surprisingly, one doesn't have to go very far to find such a retreat... it might be waiting for them in their own home!

Presenting our 1/2" Bali reflective fire glass... a source of relaxation for both the mind and body. The beautiful exotic colors of this pre-mixed reflective glass will allow your customers to forget their anxieties and - for a short while - become one with nature. Equally enchanting in both fireplaces and fire pits, the lovely hues are reminiscent of the natural elements: blue for water, transparent white for air, and golden brown for earth and fire. Whether used indoors or outdoors, the glow from these gorgeous reflective glass pieces is sure to become the focus of everyone's attention.

A Practical Alternative to Ceramic Logs & Stones

Our Bali reflective fire glass is not just gorgeous to behold, it is also very practical. It does a great job of covering the entire floor of a fire feature, effectively hiding the unseemly pipes and tubes which are often visible in gas fireplaces or fire pits. This makes fire glass a more preferable alternative to the more common ceramic logs and fire stones.

Extremely Durable, Safe & Long Lasting!

All our fire glass is manufactured from non-tumbled tempered glass which can withstand temperatures of up to 1300 degrees Fahrenheit without cracking or losing its color or shape. Our tempered fire glass is not tumbled which ensures an enhanced shine. Used correctly, this amazing product could last your customers a lifetime!

Furthermore, our fire glass gives off no ash, smoke or soot, which makes it surprisingly easy to maintain. Thus, your customers will spend more time enjoying this lovely product and less time cleaning it!

If your customers are looking to get in touch with their spiritual side, introduce them to our 1/2" Bali reflective fire glass!
