1/2" Maui Breeze Reflective Fire Glass

Did you know tiger sharks prefer the dark blue waters of Maui above all others? And no wonder, the waves and sandy beaches of Maui are arguably the most beautiful in the world. And to show our love for the breathtaking scenery of the Maui shores, we introduce our lovely 1/2" Maui Breeze reflective fire glass!

Especially suited to poolside environments, this lovely fire glass is sure to delight your customers and their guests even before their fire feature is lit. When they finally ignite the fire, the flames will appear to dance upon the ice-like glass pieces and the reflective nature of this fire glass will further intensify the effect, mesmerizing the audience and becoming the focus of all attention. Your customers are sure to receive a fair share of compliments!

A Practical Alternative to Ceramic Logs & Stones

Our Maui Breeze reflective fire glass is not just exquisite to behold, it is also very practical. It does a terrific job of covering the entire floor of a fire feature, effectively hiding the unseemly pipes and tubes which are often visible in gas fireplaces or fire pits. This makes fire glass a more preferable alternative to the more common ceramic logs and fire stones.

Extremely Durable, Safe & Long Lasting!

Our 1/2" Maui Breeze reflective fire glass is made with high quality, non-tumbled, tempered glass and has undergone a unique 5-step manufacturing process which ensures it can withstand harsh weather and temperatures of up to 1300 degrees Fahrenheit without any cracking, or any loss of shape or color. Our tempered fire glass is not tumbled which ensures an enhanced shine. Used correctly, this amazing product could last your customers a lifetime!

Furthermore, our fire glass does not emit any harmful chemicals, smoke, ash, or soot, which means there is hardly any cleaning for your customers to do. They can spend more time enjoying their fireplace or fire pit, and less time maintaining it!

Let your customers bring the beauty of the Maui shores to their living room with our 1/2" Maui Breeze reflective fire glass!
