1/2" Copper Luster Fire Glass 2.0

Copper Luster Fire Glass 2.0 is here and it's what your fire feature is missing. Compliment any decor with this 1/2" Copper Fire Glass. This newest form of fire glass is a sleek cuboid shape that will work in both modern and classic decor schemes. With a luster finish on every side, this premium fire glass will shimmer and shine even from a distance

A Practical Alternative to Ceramic Logs & Stones

Copper Fire Glass 2.0 isn't just lovely to behold, it is also very practical. It does a wonderful job of covering the entire floor of a fire feature, effectively hiding the unseemly pipes and tubes that are often visible in gas fireplaces and fire pits. This makes fire glass a more desirable alternative to the often seen ceramic logs and fire stones.

Extremely Durable, Safe & Long Lasting!

All our fire glass is made of high quality tempered glass which has been manufactured via a unique 5-step process that renders its beautiful shine and allows it to withstand harsh weather and temperatures of up to 1300 degrees Fahrenheit without sustaining any damage or discoloration. Under normal conditions, this amazing product could last your customers a lifetime!

Another advantage of fire glass is that it does not emit any harmful chemicals, smoke, soot, or ash; thus it hardly requires any cleaning and is very easy to maintain!

If your customers like the idea of having gems in their fire feature, show them our 1/2" copper luster fire glass 2.0.
