## 36"x 6" Linear Oil Rubbed Bronze Drop-In Pan with Match Light Kit - Propane

Who can resist a nice, big, outdoor fire? Add some close friends and/or family to the mix and you've got a night to remember! Some people think setting up such a fire in their fire pit will be a daunting task, but that's simply not true. Now your customers can easily organize their own DIY fire display with our 36" x 6" linear drop-in pan with match light kit (propane gas). Our match light kit offers a quick and simple method to help your customers create an amazing fire display in their outdoor fire pit.

Enjoy the deep and rich texture of Oil Rubbed Bronze while softly complimenting any outdoor decor theme.

The beautiful finish starts with a proprietary coating process that is then hand sanded and finished by our artisans. Because each piece is hand finished, the depth of color and texture will vary; each piece is truly a work of art.

Like any other American fire glass collection, all items in the Oil Rubbed Bronze collection are made from high quality stainless steel. Fire Pit Pan Covers are made to compliment and protect their matching drop-in pan units. We strongly recommend that you consider protecting your fire feature investment with our beautiful new Oil Rubbed Bronze Fire Pit Pan Cover.

Our 36" x 6" linear drop-in pan with match light kit (propane) comes fully equipped with all the following components:

**36" x 6" Linear Oil Rubbed Bronze Channel Drop-in Burner Pan w/ Built-in T-Burner** - Our 36" x 6" linear drop-in burner pan comes with a convenient 'lip' so it can be installed into your DIY fire pit and easily removed after use. These burner pans greatly reduce the amount of fire glass your customers will need to fill their fire pit by creating a false bottom which gives the illusion that the fire

pit is full, whereas only the top part of it is. All our linear drop-in burner pans are made of 304 stainless steel, which means they are very durable and can withstand extreme heat as well as harsh weather without sustaining any damage or rust. Each comes with a built-in T-burner, 1/2 inch gas inlet and drilled weep holes to prevent water accumulation.

**34" Quiet-Flex Gas Line-** with safety shut-off valve and required fittings

### **Propane air mixer**

The only thing your customers need to provide is the match!
