## 30" x 6" Linear Channel Drop-In Pan with Spark Ignition Kit - Propane Bundle

A warm, cozy fire pit can be an ideal outdoor retreat for family and friends, especially during those cold winter months. Our 30" x 6" linear channel drop-in burner pan with spark ignition kit (propane) is just what your customers will need to organize such an event. With just the flip of a switch, your customers and their guests will be enjoying a brilliant flame and lots of memorable conversations!

Our 30" x 6" linear drop-in pan with spark ignition kit (propane) comes fully equipped with all the following components:

**30" x 6" Linear Channel Drop-in Burner Pan w/ Built-in T-Burner** - Our 30" x 6" linear drop-in burner pan comes with a convenient 'lip' so it can be installed into your DIY fire pit and easily removed after use. These burner pans greatly reduce the amount of fire glass your customers will need to fill their fire pit by creating a false bottom which gives the illusion that the fire pit is full, whereas only the top part of it is. All our linear drop-in burner pans are made of 304 stainless steel, which means they are very durable and can withstand extreme heat as well as harsh weather without sustaining any damage or rust. Each comes with a built-in T-burner, 1/2 inch gas inlet and drilled weep holes to prevent water accumulation.

**A Push Button Spark ignitor** - battery included and ignites with the push of a button

**Fire Pit Connection Accessories** - including gas hose (4' and 5') regulator, chrome key valve with key, air-mixer.

**Optional Accessory** - [Push Button Ignitor Mounting Plate](#) for mounting your key valve and your push button for the spark ignitor.

**Linear Flame Guard Features** - Fire Pit Flame Guards provide an additional safety barrier, help

maintain a central flame during the evening breeze, all while providing an enhanced fire elegance by reflecting the flames on the glass surfaces. Made from tempered glass, all our Fire Pit Flame Guards are heat resistant with polished edges, and designed for use with any fire pit.

**Linear Burner Cover Features** - Here at American Fire Glass we believe our customers deserve the best products available. To that end we are proud to announce the addition of Fire Pit Pan Covers to our current collection of quality products. As with our quality burner pans, the new Fire Pit Pan Covers are crafted from high quality .304 stainless steel with smooth brushed finish and a heavy duty solid chrome handle. Fire Pit Pan Covers are made to compliment and completely protect their corresponding drop-in pans units. We strongly recommend that you consider protecting your fire feature investment with our splendid new Fire Pit Pan Covers

**Save 5% When You Bundle.**
