25" Round Drop-In Pan with Spark Ignition Kit (18" Fire Pit Ring) - Natural Gas Bundle

Everyone loves to sit around a nice warm fire with close friends and family, especially on those cold winter nights! Some people think setting up such a fire in their fire pit will be difficult, but that's not true. Now your customers can easily organize their own DIY fire display with our 25" round drop-in pan with spark ignition kit (natural gas). With just the push of a button, your customers and their guests will be enjoying a brilliant flame and lots of wonderful conversations!

Our 25" round drop-in pan (18" ring) with spark ignition kit (natural gas) comes fully equipped with all the following components:

25" Round Drop-In Burner Pan - This 25" round drop-in burner pan comes with a convenient 'lip' so that it can be installed into your circular fire pit and easily removed after use. It also greatly reduces the amount of fire glass your customers will need to fill their fire pit by creating a false bottom which gives the illusion that the fire pit is full, whereas only the top part of it is. All our round drop-in burner pans are made of 100% stainless steel, which means they are very durable and can withstand extreme heat as well as harsh weather without sustaining any damage or rusting. Each comes with drilled weep holes to prevent water accumulation.

18" Ring Burner - This 18" fire pit ring burner fits on top of your fire pit burner pan. It is made of high grade 304 stainless steel which ensures its durability under extreme heat and severe weather conditions. The cross bar design provides for better flame distribution. The holes in the ring are drilled, not punched, which prevents any loud whistling noises. The ring burner works best under 2 - 4 inches of fire glass.

A Push Button Spark ignitor - battery included and ignites with the push of a button

Fire Pit Connection Accessories - including gas hose (5' and 5'), chrome key valve with key.

Optional Accessory - [Push Button Ignitor Mounting Plate](#) for mounting your key valve and your push button for the spark ignitor.

Round Flame Guard Features - Fire Pit Flame Guards provide an additional safety barrier, help maintain a central flame during the evening breeze, all while providing an enhanced fire elegance by reflecting the flames on the glass surfaces. Made from tempered glass, all our Fire Pit Flame Guards are heat resistant with polished edges, and designed for use with any fire pit.

Round Burner Cover Features - Here at American Fire Glass we believe our customers deserve the best products available. To that end we are proud to announce the addition of Fire Pit Pan Covers to our current collection of quality products. As with our quality burner pans, the new Fire Pit Pan Covers are crafted from high quality .304 stainless steel with smooth brushed finish and a heavy duty solid chrome handle. Fire Pit Pan Covers are made to compliment and completely protect their corresponding drop-in pans units. We strongly recommend that you consider protecting your fire feature investment with our splendid new Fire Pit Pan Covers

Save 5% When You Bundle.
