## Real Fyre 18 Inch Split Oak Logs with G4 Ember Burner System Natural Gas Complete Set

Turn your wood burning fireplace into an efficient and warm gas burning unit. Real Fyre 18 Inch Split Oak Logs with G4 Ember Burner System Natural Gas Complete Set is expected to be used in a vented and approved fireplace enclosure. The logs feature high definition bark and natural colors for an authentic wood look and are constructed with superior refractory ceramics to ensure the gas logs retain their strength at high temperatures. Additionally, Steel rods are inserted in each log to provide maximum reinforcement & durability. Real Fyre log sets are designed to burn efficiently while protecting natural resources and reducing pollution.

RH Peterson offers over 60 years of fire know-how, and consistently delivers innovative reliable hearth products that meet the highest standards in quality, convenience, and reliability. Hand crafted in Southern California & manufactured to exacting specifications, all RH Peterson Real Fyre gas log sets are detailed with high-definition bark and natural colors for authentic wood realism. Choose from a wide selection of the most beautiful looking gas fire products available, designed for vented fireplaces. If you are looking for a high-end brand of logs, Real Fyre is what you're looking for.

### Design & Construction Features:

All Real Fyre Gas Logs feature a contemporary design constructed from a technologically advanced building material called superior refractory ceramics. This environmentally friendly material is used in a variety of applications due to its strength & durability. All gas logs are steel reinforced for longer life, are certified to national standards, and come with the best warranty in the industry.

### Industry Leader Burner:

The extensive Real Fyre collection of burner systems, for both gas logs and contemporary

applications, offers the most versatile and comprehensive lineup in the industry. Each burner design is meticulously engineered to enhance and maximize the beauty and realism of every Real Fyre product.
