## 36" x 12" Rectangular Stainless Steel Drop-In Pan with Spark Ignition Kit (Propane)

A warm, cozy fire pit can be an ideal outdoor retreat for family and friends, especially during those cold winter months. Our 36" x 12" rectangular drop-in burner pan with spark ignition kit (propane) is just what your customers will need to organize such an event. With just the flip of a switch, your customers and their guests will be enjoying a brilliant flame and lots of memorable conversations!

Our 36" x 12" rectangular drop-in pan with spark ignition kit (propane) comes fully equipped with all the following components:

**36" x 12" Rectangular Drop-in Burner Pan w/ Built-in H-Burner** - Our 36" x 12" rectangular drop-in burner pan comes with a convenient 'lip' so that it can be installed into a fire pit and easily removed after use. These burner pans greatly reduce the amount of fire glass your customers will need to fill their fire pit by creating a false bottom which gives the illusion that the fire pit is full, whereas only the top part of it is. All our rectangular drop-in burner pans are made of 100% stainless steel, which means they are very durable and can withstand extreme heat as well as harsh weather without sustaining any damage or rusting. Each comes with a built-in H-burner and drilled weep holes to prevent water accumulation.

**A Push Button Spark ignitor** - battery included and ignites with the push of a button

**Fire Pit Connection Accessories** - including gas hose (4' and 5') regulator, chrome key valve with key, air-mixer.

**Optional Accessory** - [Push Button Ignitor Mounting Plate](#) for mounting your key valve and your push button for the spark ignitor.

**Propane air mixer**

## Portable propane tank regulator
