30" x 6" Stainless Steel H-Style Burner - Natural Gas

Who doesn't enjoy getting together with family and friends and sitting in front of a warm, blazing fireplace? The bright yellow flames seem to take away all the stress and worries of the day, relaxing all onlookers and stimulating cheerful conversation. But in order to set up a truly amazing fire one needs the right equipment, and with our elegant 30" x 6" H-burner (natural gas), your customers will be able to light a fire display worth remembering!

Stylish, Efficient & Easy to Install

Our stylish 30" x 6" H-burners for natural gas aren't just pleasing to look at, but also extremely efficient flame producers. Resembling a piece of shining modern art, they are designed to fit perfectly within your customers' fireplace and deliver an impressive and evenly distributed flame in a straight line. Each H-burner comes with a 16 inch flex line and all the necessary fittings for convenient attachment to a natural gas supply.

Extremely Durable & Long Lasting

Our 30" x 6" H-burners are constructed with high quality stainless steel which means they can withstand harsh weather and extreme temperatures without the slightest damage or discoloration. Your customers and their guests will be able to enjoy this amazing product for many years to come!

(Note: For best effect, use under 2 - 4 inches of fire glass!)
