36" Square Drop-In Pan with Match Light Kit (18" Ring) - Natural Gas

Who can resist a nice, big, outdoor fire? Add some close friends and/or family to the mix and you've got a night to remember! Some people think setting up such a fire in their fire pit will be a daunting task, but that's simply not true. Now your customers can easily organize their own DIY fire display with our 36" square drop-in pan with match light kit (natural gas). Our match light kit offers a quick and simple method to help your customers create an amazing fire display in their outdoor fire pit.

Our 36" square drop-in pan (18" ring) with match light kit (natural gas) comes fully equipped with all the following components:

36" Square Drop-In Burner Pan - Our 36" square drop-in burner pan comes with a convenient 'lip' so that it can be installed into a square-shaped fire pit and easily removed after use. These burner pans greatly reduce the amount of fire glass you will need to fill your fire pit by creating a false bottom which gives the illusion that your fire pit is full, whereas only the top part of it is. All our square drop-in burner pans are made of 100% stainless steel, which means they are very durable and can withstand extreme heat as well as harsh weather without sustaining any damage or rusting. They also come with built-in, drilled weep holes to prevent water accumulation.

18" Ring Burner - This 18" fire pit ring burner fits on top of your fire pit burner pan. It is made of high grade 304 stainless steel which ensures its durability under extreme heat and severe weather conditions. The cross bar design provides for better flame distribution. The holes in the ring are drilled, not punched, which prevents any loud whistling noises. The ring burner works best under 2 - 4 inches of fire glass.

34" Quiet-Flex Gas Line - with safety shut-off valve and required fittings

The only thing your customers need to provide is the match!

36" Square Drop-In Pan (18" Ring) with Match Light Kit (Natural Gas) Specifications
